WHOLE HOME PLAN MEMBERSHIP CAN:

- 
Prolong Your Equipment Life
 Not only will a routine checkup help prevent poorly timed breakdowns, but it can also prolong the life of your systems and equipment. This can help to reduce your overall lifetime equipment costs.
- 
Reduce Your Energy Bills
 Routine maintenance can actually pay for itself. By cleaning and calibrating your equipment regularly, you may use less energy, keeping your energy bills in check year round.
- 
Maximize Safety
 A regular checkup assures that your home's equipment operates safely by potentially spotting problems before they occur.
- 
Save 15% on All Repairs
 Maintaining your electrical, plumbing and HVAC systems goes far to fend off costly repair expenses. In the event you need repairs, members save 15% on any repair services. The damage to your home from electrical fires or floods due to plumbing system failures can end up being much more costly than out of pocket expenses for routine checkups, maintenance procedures and repairs.
